We understand the mismatches and have fixed the scribe file to reflect the actual sample set. We are providing a revised COC and XML has addressed the mismatches.

**** External Email ****

Can I get a reply that you understand the CoC mismatches and the missing sample? I need to document your acknowledgement along with the sample login.

Thanks!

Robert Snyder

Subject: RE: ITC Tank Fire COC/XML - R5 - 20190429

A few things found at checkin that I need to make sure you are aware of before I proceed:

The samples provided for MS/MSD (ITC-BB-05-20190426-11, ITC-BB-07-20190427-11, ITC-BB-09-20190428-11, and ITC-BB-11-20190429-11) were not documented correctly on the CoC. None of them had the correct container count (all had 3 vs the actual 9) and ITC-BB-09-20190728-11 was not indicated as lab QC.

Sample ITC-BB-09-20190427-15 (FieldQC) was not received. The sample time is also blank on the CoC, but that is irrelevant as we have no sample to correspond with it.

If keeping the sampled days' CoCs separate instead of mixing the whole shipment onto one CoC helps, please feel free. I will check these all in on one work order regardless of if there are four individual CoCs or one big one.

Hey Rob,

Attached are the COC and XML files for water samples collected today.
They are being shipped FedEx priority overnight and the associated airbill number is 7750 8497 1394.

Thanks!
